**Associate Certified Entomologist
Preparatory Course**

The Entomological Society of America, established as the industry leader in certification through its Board Certified Entomologist (BCE) program since 1992, offers certification for the structural pest management industry. Launched in May of 2004, the Associate Certified Entomologist (ACE) program is rapidly becoming the industry-standard for professionalism and training.

To Become an ACE:

- ACE applicants need a minimum of 7 years of verifiable structural pest management experience
- Current US pesticide applicator's license
- Ability to pass a test of their knowledge of structural pest control

Texas A&M AgriLife Extension is sponsoring a preparatory course for the ACE Exam. This course will be led by Board Certified Entomologists from Texas A&M AgriLife.

2014 Preparatory Dates:

Date/Time: Jan 10, 17, 24, 31 / 9am-12pm

Cost: \$35 (payable to Texas A&M AgriLife Extension Service)

*cost for application and ACE exam extra and through Entomological Society of America

Location: Texas A&M AgriLife Extension Office, Bexar County
3355 Cherry Ridge, Suite 208, SATX 78230

Exam Date: TBD by applicant when ready

You can take the ACE exam at any time within 365 days of your application being approved. ACE exams must be scheduled with a Board Certified Entomologist.
