Texas AgriLife Extension Service, Bexar County and Texas Department of Agriculture are offering certification and recertification training for private pesticide applicators. The purpose of this training is to obtain a Private Applicator License from Texas Department of Agriculture. This license will enable the applicator to purchase and apply state limited use and federally restricted chemicals on his land or land he has control of for the purpose of production of agricultural commodities. All farm and ranch operators who do not have a Private Applicator’s License to purchase “restricted use” pesticides (such as 2, 4-D, Grazon P+D, Tordon 22K, etc.) will need to attend this training. A representative from Texas Department of Agriculture will be on hand to administer the test.

When: December 6, 2012 (Thurs)
Time: 8:15 a.m.
Where: Texas A&M AgriLIFE Extension Service
3355 Cherry Ridge, Suite 208
San Antonio, TX 78230-4818

The training is given by Bryan Davis, County Extension Agent – Natural Resources for Bexar County. There are two manuals that can be purchased for $60 that are used in the class. Having these manuals in advance will help you become familiar with pesticide prior to attending the training.

If you are interested in obtaining a Private Pesticide Applicator license, please contact Angel Torres at (210) 467-6575 to RSVP and to purchase the manuals. Please make check payable to: Texas A&M AgriLIFE Ext Svc and mail to the above address.

Extension programs serve people of all ages regardless of socioeconomic level, race, color, sex, religion, disability or national origin. The Texas A&M System, U.S. Department of Agriculture, and the County Commissioners Courts of Texas Cooperating.
