SPRING BREAK NATURE CAMP!

Your kids won’t want to miss this amazing camp, hosted by Texas A&M AgriLife Extension Service in Bexar County! We will learn all about nature: entomology, horticulture, agriculture, wildlife and microbiology with guest speakers and experts in nutrition, agriculture, entomology, herpetology and falconry.

Get up close and personal with birds of prey in a falconry lesson; touch and play with insects and tarantulas in an entomology lesson; perform a science experiment with germs, learning what surfaces have the most bacteria; perform experiments and crafts with plants; learn where your food comes from and churn real butter; and much more!

Field Trip on Wednesday, March 16th, must sign a release form for transportation. AM and PM snacks provided, please bring a sack lunch.

March 14-17, 2016
Ages 7-11
3355 Cherry Ridge, Ste 208
9AM-2:30PM
$110
