

Entomology Summer Camp

Texas A&M AgriLife Extension's Entomologist, Molly Keck, is hosting the 8th annual summer camp for junior entomologists. Camp will be held at Hardberger Park, West Entrance, in the Ecology Center.

Campers will collect insects, assemble collection, perform experiments and activities with insects, learn how to identify insects and how they are important and get the chance to see and hold lots of live bugs!

Campers receive an insect collection kit (net, forceps, killing jar, pins, spreading boards, magnifier, booklet, pens, collection box, and collecting bag). Come join us for the fun!

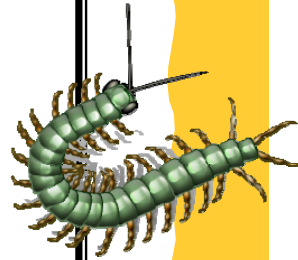

***It's the most fun your kids will EVER have
with bugs!***

Who: Youth, ages 7 and up
Where: Hardberger Park Classroom West Entrance, 8400 NW Military
When: Camp #1 - July 13-15, 2016
Camp #2 - July 20-22, 2016
Time: 9am-2pm (bring a sack lunch)
Cost: \$100 Checks payable to "Texas A&M AgriLife Extension"

If your child attended last year's camp and does not need another kit, cost is \$50.

**If your child attended last year and needs kit materials but NO net cost is \$75
(includes labels, magnifying glass, collection jars, label pen, killing solution and bottle,
spreading board, and collection box).**

Space is limited to the first 20 paid, complete registrations. We fill up fast!
Registration deadline is June 8, 2016.
