

Kids gARTening Camp

June 10 - 13, 2013

Plant a seed of art appreciation in your child as they discover different natural artistic styles while they explore the garden. Each day during camp, we make art projects that grow and bloom into masterpieces. Students will learn to create paper, dye their own flowers, sculpt vegetables into their favorite critters, as well as discover fun ways to make new artwork. Kids will also explore the garden with their taste buds and find out how plants turn the sun's energy into fuel for our bodies! We'll explore how we eat plant parts every day, and make our own tasty snacks.

Space is limited to the first 25 paid, complete registrations.

Deadline to register is: June 3, 2013

Questions? Contact Natalie Cervantes at 210-467-6575 or ntcervantes@ag.tamu.edu
