

## Private Applicator Training

The Texas A&M AgriLife Extension Service in Bexar County is offering certification and recertification training for private pesticide applicators. The purpose of this training is to obtain a Private Applicator License from Texas Department of Agriculture. This license will enable the applicator to purchase and apply state limited-use and federally-restricted chemicals on his land or land he has control of for the purpose of producing agricultural commodities. All farm and ranch operators who **do not** have a Private Applicator's License to purchase "**restricted use**" pesticides (such as 2, 4-D, Grazon P+D, Tordon 22K, etc.) **will need** to attend this training.

When: December 6, 2018 (Thursday)  
Time: 8:30 a.m.  
Where: Texas A&M AgriLife Extension Service  
3355 Cherry Ridge, Suite 208  
San Antonio, TX 78230-4818

There are two required training manuals (total cost - \$40) that will be used in the class. Purchasing these manuals in advance will help you to become more familiar with pesticides prior to attending the training session, however, advance purchase is not required. A \$10 registration fee will be collected on the day of the training.

If you are interested in obtaining a Private Pesticide Applicator license, please contact Carrie Huntzinger at **(210) 631-0400** to RSVP. Make check payable to: **Texas A&M AgriLife Extension Service** and mail to the above address.
