## **Quality Counts**

- **Information:** This is a reminder that Quality Counts verification is **required for all major livestock show entries this year, including State Fair of Texas and Heart 'O Texas Fair**. This verification needs to be completed *prior* to livestock show *entry*. County and local shows may also require Quality Counts completion, so be sure to check show rules. There are some very important updates and reminders below that will affect the verification process for your exhibitors, so please read carefully. Also please check out our [FAQ sheet here](#) for more answers!
- **\*Important:** There are [NEW ENROLLMENT INSTRUCTIONS LOCATED HERE](#). These are different than the ones distributed last year, so please discard any previous instructions and use the attached. You can always point exhibitors here for more info: <https://texasyouthlivestock.com/quality-counts/> Note: These new instructions **will not affect** any exhibitors who have previously completed or are currently working on the curriculum/exam.
- **\*Important:** Please always encourage your livestock exhibitor families to use **Mozilla Firefox™** internet when completing the Quality Counts curriculum and exam. This program is best suited for our system and will ensure a smooth experience.
- **\*Important:** New this year, we have a helpdesk in place to help assist with any technical concerns regarding the Quality Counts curriculum site. These folks are prepared to help with computer/system related problems, such as potential glitches in the course users may experience. They can also help with passwords and other login information. They can be reached here: [learnonline@ag.tamu.edu](mailto:learnonline@ag.tamu.edu)
- **\*Important:** Exhibitors only need to be verified **once** as a Junior (grades 3-5), **once** as an Intermediate (grades 6-8), and **once** as a Senior (grades 9-12). **Exhibitors do NOT have to complete the curriculum/exam every year.**
- Based on feedback from last year Quality Counts is now hosted on a new curriculum platform that should serve more appealing for exhibitors and their families. This includes some things like: improved junior content that is more suitable to this audience, a reduced registration process, and enhanced learner experience features. **Because of this, even if a user created an account last year and are enrolling in a new grade category, they will need to create a new account. This is because we transitioned websites for improvements.**
